

## TOO SHORT FOR HEADINGS

POINTED PARAGRAPHS GATHERED HERE AND THERE

BY TALLAHASSEE REPORTERS

If You Don't Find It Here Look Elsewhere.

Don't forget that fresh oysters are now here.

An unusually large number of the out-of-town farmers were in town on Saturday.

A large number took advantage of the cheap rate excursion to Apalachicola, which left on Saturday night.

Our readers will notice by the date on the outside of our paper that the publication day of the Tallahassee has been changed to Friday.

Your orders will receive prompt attention at

The Southern Express Company will occupy part of the first floor of the new Hirschberg building when completed.

One of our local druggists complains that people don't seem yet to understand that the drug stores have stopped selling ice cream for the season.

Cotton and cotton seed are beginning to come in from the country, en masse, judging from the huge bales and number of cart loads of seed passing through our streets this week.

The first duck of the season a fine mallard, appeared in the hands of one of our local gunners last Thursday evening, as we were going to press, too late for notice in last week's issue.

Miss Mattie Demilly, who was reported as quite sick last week, is improving rapidly, and her many friends hope to see her soon quite restored again.

Several of the merchants and storekeepers report larger sales on last Saturday than on any previous Saturday for many weeks. A local fruit dealer also reported the largest fruit sales of the summer.

Mr. B. F. Inman, who has been in for some time, is now rapidly recovering. He works for the seaboard Air Line Railroad Company, and not for the Southern Express Company, as was stated in our last week's issue.

The contract for the brick and stone work on the Messrs. Duval Brothers' new building has been given to Mr. J. W. Smith. The basement will be 50 by 100 feet, the outside of the building will be of pressed brick.

Inspect our new line of stationery. The Tallahassee Drug Co.

The building boom is fairly begun in Tallahassee. With the Duval Brothers' new building, the Hirschberg new brick block, Mr. Williams' new house and the addition to the capitol soon to be begun, to say nothing of the new dormitories of the Florida State College, Tallahassee is bracing up, sure enough. Who says we are not pushing ahead as fast as we are able?

Mr. H. N. Sweeting has just purchased an elegant new piano for his piano and organ warehouse. It is one of Ebersol's best, made by the Smith &amp; Nixon Company, of Cincinnati and Chicago, and is a magnificent instrument. The lining is of birdseye maple, and the outside of selected tiger-skin oak, polished. It will be an ornament to any house.

Mr. Isadore Marcus has moved his bar room to the store in the old Floridian building until his new stand shall be completed. He is very comfortably arranged in his narrow quarters, but everything is there, including Mr. Marcus, who will be glad to meet his old customers in his new quarters.

In our paper of two weeks' ago we had the name of Mr. Frank Hartsfield classed for first grade, when it should have appeared as third. Just how the slip occurred we are unable to state, as the copy was plain enough. We make this statement especially to show that the grading committee had nothing to do with it.

The contract for the new Hirschberg building has been awarded to Messrs. Gilmore &amp; Davis, who are to begin work October 1st, and expected to complete the building by January 1st. It is to be a two-story structure, of brick, and will be fitted up throughout with all modern conveniences.

Several of our merchants are improving their opportunities to lay in a new supply of fall and winter goods just now. The sidewalks in front of their stores are covered with boxes and packages. Read their new advertisements, and watch these columns. There will be sure to be bargains and novelties for everybody.

Pure drugs and medicines at The Tallahassee Drug Co.

In another column of our paper will be found the proposal for bids upon new capitol additions. Sealed proposals will be received and examined by the building committee and, all things being equal, the contract given to the lowest bidder. Who will get it?

Mr. Clarence Townsend has rented the rooms above Mr. Hill's bookstore for a photograph studio. He is now putting in his apparatus and fitting things up for a first-class photographic gallery. Mr. Townsend is well known to Tallahassee people as an energetic young man who has always done good work and pleased patrons, and they will be glad to welcome him again, and assure him of their patronage.

Senator Arthur L. Williams, of Nassau county, is in the city on business.

Mr. R. C. Dunn, of Madison, editor of the Madison Recorder, visited at the Capital on Wednesday.

Attorney-General W. J. Lamar is expected home from Buffalo and other Northern cities to-day.

Mr. Clifford B. Gwynn has returned from the "cottage" at Panama Springs once more and is at his desk again.

Fine chewing tobacco at The Tallahassee Drug Co.

Mrs. Mary Mabley, of Thoroughfare, is visiting her sister, Mrs. E. Trice, on Clinton street.

Mrs. Willis returned Wednesday from a lengthy visit to her son George, in Fernandina.

Editor Dunn, of the Madison Recorder, was a pleasant visitor at the office yesterday.

Mr. E. M. Mabry was in town Saturday. He reports everything doing well about Lake Jackson district.

Mr. Junius Turnbull, the well-known and faithful assessor of Jefferson county was visiting the capital to discuss the tax question on Thursday.

Captain C. H. B. Floyd, of Apalachicola, spent a few days at the capital on his home on Wednesday.

For sprains, swellings and lameness there is nothing so good as Chamberlain's Pain Balm. Try it. For sale by Wight &amp; Bro. and all medicine dealers.

Mrs. John T. Bradford, having had seven years' experience in teaching music, desires to open a class in Tallahassee on October 1st. For terms and hours, write or call at Mrs. A. L. Bond's, until October 1st. 30-1a

Mr. W. R. Wilson and daughter, Mrs. Hogan, together with Mr. and Mrs. P. H. Wilson, returned from New York and other Northern cities Tuesday. They report a very pleasant and successful trip.

When you have no appetite, do not relish your food and feel dull after eating you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at Wight &amp; Bro.'s drug store.

Mr. Harris Levy returned to this city on Tuesday. He had been to Baltimore and Washington, where it was reported that he had gone to get married. Mr. Levy's trip was purely a pleasure trip, and the fine photograph which he brought home with him is a forerunner of the future, his friends say.

Mr. Harrell, of the firm of Forbes &amp; Harrell, of the Tallahassee Restaurant, has withdrawn from the partnership. Mr. Forbes will now conduct the business alone, and has arranged to supply fresh oysters henceforth every day in the week, instead of Tuesdays, Thursdays and Saturdays, as previously advertised.

A new remedy for biliousness is now on sale at Wight &amp; Bro.'s drug store. It is called Chamberlain's Stomach and Liver Tablets. It gives quick relief and will prevent the attack if given as soon as the first indication of the disease appears. Price, 25 cents per box. Samples free.

Doctors Moor and Gwynn, of the Tallahassee Drug Store, have removed their soda fountain from their store, and in its place substituted one of the elegant new showcases made by the Columbus Show Case Company, of Columbus, Ga., which they have filled with the choicest line of first-class stationery. The case is eight feet in length, and besides making more room beautifies the store to a great extent. They have also placed a similar case, though somewhat smaller, in the center of the store, facing the entrance, which they have filled with brushes, combs, whisk brooms, tooth brushes and lotions and articles of a similar nature. The Columbus show case has made a great "hit" in their beautiful productions, and Tallahasseeans are reaping the benefit of it.

## NOTICE.

My residence is second house east of Sheriff Pearce, and my machine supplies can be had at W. H. Markham's grocery store.

M. T. Joiner, Singer agent.

## You Can Lead a Horse

to water but you can't make him drink.

You can't make him eat either. You can stuff food into a thin man's stomach but that doesn't make him use it.

Scott's Emulsion can make him use it. How? By making him hungry, of course. Scott's Emulsion makes a thin body hungry all over. Thought a thin body was naturally hungry didn't you? Well it isn't. A thin body is asleep—not working—gone on a strike. It doesn't try to use its food.

Scott's Emulsion wakes it up—puts it to work again making new flesh. That's the way to get fat.

Send for free sample.

SCOTT &amp; BOWNE, Chemists, 409 Pearl St., N. Y. 50c and \$1.00; all druggists.

The Leon Academy started its regular session on Monday, Sept. 30th.

Saturday's and Sunday's rain came very agreeably in laying the dust and cooling off the atmosphere.

Mrs. T. J. Roberts has returned to the city again, after her visit to friends and expects to re-open her boarding house, "the Pillars."

Mr. J. C. Trice, editor of the Tallahassee, has been out of town for a few days visiting in Jacksonville and other places along the route.

PILE-INE CURES PILES! Money refunded if it ever fails.

Mrs. James A. Ball expects to leave for Augusta, Ga., on Friday on a visit to relatives and friends. She will remain away about a month.

Commission has been issued to First Lieutenant C. S. Nobles, of Leesburg, Lake county, for promotion to be Captain and Commissary of the Second Regiment of Infantry.

Mr. F. W. Armstrong, passenger agent of the C. T. &amp; G. R. R., has returned from Eastman, Ga. He has been away with his family visiting friends. His family will remain away a while longer.

Go to Balcomb's drug store and see his new show cases, made by the Columbus Show Case Co. of Columbus, Ga. They are six feet long, four feet high, two feet deep and made of polished oak and the finest glass. There are two of them.

Senator McIn returned with his family from Panama Springs last Sunday. He has been spending a week very acceptably sailing and fishing, and in trips through the country down there. He appears to be greatly improved in health and ready to begin his fall duties once more.

Mrs. A. L. Bond and the Misses Fannie MacLeod, May Crollis and Anne Lloyd Bond returned from Lanark on Monday, where they have been stopping at the Lanark Inn, which has closed for the season. They have been stopping there for several weeks past and have enjoyed an elegant time.

Mr. B. F. Inman, who has been in the city for the past ten days, selling insurance for the Southern Ad. Benevolent Association, of Pensacola, left last Saturday night for Apalachicola on the excursion. He is agent for all the larger cities and towns in this part of Florida.

Ishmeal Knight, a successful colored farmer of Bradfordville, who purchased the plantation owned by the late Judge Hilton, consisting of 110 acres of land, has just purchased of Gilmore &amp; Davis a Deering Ideal mower for his extensive hay farm. He has cultivated a large lot of grass land and expects a fine crop of hay.

## MOTHER'S WORM SYRUP.

Best worm medicine. Children like it so well they eat it on bread.

Mr. J. H. Moody left last Friday night for the country, where he will join his family on the farm. He has sold out his interest in the restaurant business to Mr. H. L. Gregory. Mr. Moody intends returning to farming again, and will continue to raise pork and sweet potatoes. He has the reputation of raising the best pork and potatoes. Mr. Gregory tells us, of anybody in the neighborhood.

Mr. J. R. Ashmore, of Ashmore, was in town Wednesday and Thursday of this week on business. He reports the crops as bad this season in Ashmore, on account of too much rain and the drill worm. The corn crop was especially injured. Sugar cane crops are, on the contrary, generally pretty good this year. As he is only seven miles from the seacoast, he says the boys are rejoicing over the fishing season, which has already begun, and that they will make up on it for the bad crops.

Policeman Dennard had quite a scrap on Saturday afternoon last with a gentleman of color by the name of Orderly. It seems that Orderly had drunk too much whiskey, according to reports, and insisted upon acting disorderly. It seems that Orderly didn't want to arrest him, and Orderly didn't want to be arrested and resisted. Mr. Dennard then found it necessary to use his club and enforce the law by, as one witness stated, "smashing his head to a jelly," but Dennard denies hitting him any harder than the occasion required. The case will come up for trial. If Orderly had not been drunk he would not have acted disorderly, and the policeman would not have orderly struck disorderly Orderly.

Adjutant-General J. C. R. Foster, of the Governor's party, who left for the Pan-American Exposition and other points the middle of the month, returned home Saturday, September 23. He was ill for a few days and stopped over at St. Augustine to see his family. He says that all would have had a fine time and enjoyed themselves greatly but for the sad death of President McKinley, which cast a gloom over everything.

## IS YOUR LIFE WORTH 25 CENTS?

Consumptives, we know that you have been disappointed many times, but make one more effort to be cured. Gooch's Mexican Syrup has cured thousands and it will cure you. Consumption is the result of the food material that should go to support the body and sustain life being absorbed and thrown off in tuberculous matter. To overcome this waste of vital force and restore the nourishment to the system in its natural course, is to cure. This is accomplished by Gooch's Mexican Syrup. It controls coughs, night sweats, spitting of blood, soreness in chest, inflamed throat and lungs, difficulty of breathing, heavy coughs accompanied with expectoration, and parched lips. We know you have been disappointed many times, but make one more effort to save yourself. You can buy a bottle of Gooch's Mexican Syrup for 25 cents. It cures a simple cough as if by magic, and is the best remedy for whooping cough.

## COMPETITION LIFE OF TRADE.

This caption is illustrative of the fact and exemplified by what happened in this community during the truck season just closed. A prospector was in town. He was looking for a tract of land on which to grow cantaloupes and watermelons. He was accompanied by a railroad promoter, and being shown the various points that would interest and eventually locate the prospector. The railroad man was working in the interest of his line, knowing if the prospector was located and he made a crop his line would receive the benefit and the agent more than earn his salary.

Incidentally an agent of a competing railroad learned of the prospector's presence; also that he was accompanied by a representative of a competing line, which made the competing solicitor all the more eager to interview the prospector. He succeeded. It didn't take him five minutes to convince the prospector he had the land and location he had been seeking for weeks.

The result of that visit rented the land and located the Easterlin Brothers at Martin, and besides being a big financial feather in the cap of the wide awake and up to date agent of the Plant System and his line, it was a ten strike for the merchants and people of Martin, which they would like to have repeated three or four times a year, and a great help to Ocala.

This little transaction is a pointer and shows the duties of a representative of a railroad line and what is expected of him and the ability required to be equal to all emergencies and that competition is the life of trade. It tells another story, that railroads are vitally interested in the communities through which they run and ever on the lookout to better their own condition and in doing this must confer benefits on said communities.

In this connection it is not amiss to say that the same agent is now at work and will induce the Easterlin Brothers to relocate near Martin and cultivate 1,000 acres next season in the Sugar Hammock, instead of several hundred as in the past season, besides securing them several hundred acres near Ocala for cantaloupe and melon lands, besides making these extensive and successful truckers residents of our town.

Part of the plan contemplates a switch of several miles right into the midst of the famous Sugar Hammock lands. The Star awaits developments with intense interest.—Ocala Star.

## CLASS LEGISLATION.

Henry B. Blackwell, of Boston, Mass., in his address at the Pan-American conference of the National Suffrage Association, in Buffalo, said in part:

"Everyone in free America admits that no class of men can be safely entrusted with irresponsible power over any other class of men; that the exercise of such power brutalizes the superior and degrades the inferior; that political equality among men is the only guarantee of social justice. Is there any reason why the same principle does not apply in the relations of men and women? If class legislation has proved so injurious to the character of men when exercised upon each other, how can it be otherwise when exercised by men upon women?"

As a matter of fact, it is even more injurious. The popular conception of woman's political inferiority degrades the home, which is the nursery of human character. The character of men and women is shaped and molded in infancy and childhood. A man is the joint product of heredity and environment. If he has been born and reared in an atmosphere of equality, in a family where husband and wife regard each other as equals, living in a noble and life-long partnership, recognizing reciprocal rights and duties, the boy learns to respect his mother and, in so doing, as he grows into manhood, he will respect also his sister, his wife, his daughter and all other women. Just in proportion as his home has been tainted with the false idea of masculine supremacy and feminine subordination, the boy will become imbued with the arrogance of sex, and will come to regard women as made for his convenience and for the service of the male half of humanity.

"Of all forms of aristocracy, sex aristocracy is the most subtle, all-pervading and dangerous. Of all the despotisms that have afflicted the human race, it is the worst."

"One of the prejudices that most retards the enfranchisement of women is the idea that conferring political freedom and opportunity upon them will degrade womanhood, diminish men's respect for women and demoralize society. If this were true, it would be indeed a fatal mistake. But the exact contrary is the fact. What is suffrage? Lucy Stone has well defined it as 'the authoritative expression of an opinion in relation to principles, measures and men. Its essence is rational choice.' It is conferred only upon persons considered capable of making a rational choice. Idiots, lunatics, criminals convicted of infamous crimes, aliens who owe allegiance to a foreign power, babies, children and young men not yet arrived at full men-

tal maturity are excluded, together with all women. Now, so long as society classes all women with the incapable, it practically puts a stigma upon womanhood, which lowers it in men's respect. Voting is one form of power and power always commands respect."

## A Wonderful Discovery.

The last quarter of a century records many wonderful discoveries in medicine, but none that have accomplished more for humanity than that sterling old household remedy, Brown's Iron Bitters. It seems to contain the very elements of good health, and neither man, woman or child can take it without deriving the greatest benefit. Brown's Iron Bitters is sold by all druggists.

## Apply the Diet For the Sedentary.

Apples are very wholesome and digestible. They contain considerable potassium and sodium salts, magnesium, a little iron and about 85 percent of water. Apples, being rich in pectin, form readily into jelly. They also contain free organic acids as well as salts. Such a malting, citrates and tartarates. They are quite laxative, more so if taken late at night or early in the morning with a glass of water. Their nutritive value is not much, as they are largely composed of water. For invalids apples are best when baked and eaten either plain or served with cream.—Ledger Monthly.

## A Drop of Water.

A gallon of distilled water weighs 8.330 pounds, and there being four quarts to the gallon and two pints to the quart, and 16 fluid ounces to the pint, and two tablespoons to the fluid ounce, and four teaspoons to the tablespoon, and 45 drops to the teaspoon, a drop of water weighs 0.00080557 pound, slightly more.

## It's Worthwhile That Costs.

Dinner—Come, tell me straight. Is it any real advantage to a man who gives you a tip?

Truthful Waiter—Honestly, I can't say that it is, but it is apt to go hard with the gentleman that doesn't tip me.—Boston Transcript.

## A WORTHY SUCCESSOR.

"Something New Under the Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES," the GUARANTEED CATARRH CURE, and is sold at the extremely low price of one dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is

now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently, and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special service from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES."

Sent prepaid to any address in the United States on receipt of one dollar. Address Dept. C740, EDWIN B. GILES &amp; CO., 2330 and 2332 Market street, Philadelphia.

Monthly Financial Statement. Board of Public Instruction of Leon County, Florida, for September, 1901.
